EXPERIENCE SCRUM IN A PLAYFUL WAY

## Scrum Cooking

Discover Scrum in one day and experience the world of agile working in a playful way at a joint cooking event. Together with your team, you will create a three-course meal and experience hands-on how unpredictable events can be mastered using agile methods.

Get to know all the essential roles, meetings and basic principles of Scrum in our one-day agile intensive workshop.

Our Scrum workshop is ideal for beginners who want to familiarize themselves with the framework, but also offers experienced Scrum professionals the opportunity to try out new methods and learn new things.

### Scope of services

The workshop usually lasts a whole day. After the workshop, participants have the opportunity to arrange a telephone coaching appointment to discuss their practical problems with agile methods in their working environment.

- › Implementation of three “cooking” sprints with all key roles and meetings
- › Reflection and feedback at the end of each sprint
- › Target group-oriented introduction to Scrum
- › Providing practical tips for implementation in your own working environment
- › Supporting the participants in transferring the workshop experience to their working environment

We have realized how important it is that the Scrum Master controls the process and prevents chaos.

Katharina Gsteu, ZF Friedrichshafen

### Who is it suitable for?

- ✓ **New project members**  
Enables playful integration into ongoing Scrum projects.
- ✓ **Scrum enthusiasts**  
Ideal for people with no previous experience of the Scrum framework.
- ✓ **Experienced project members**  
For those who want to re-evaluate their existing Scrum practice.
- ✓ **Company's**  
For organizations evaluating the suitability of Scrum for agile software development.

### Our offer

We would be happy to clarify your requirements for the Scrum Cooking workshop in a free preliminary discussion. In particular, we are interested in what goals you are pursuing with the workshop, how many participants should be involved and what experience you have had with the Scrum method to date.

### Workshops with doubleSlash

- ✓ **Agile and entertaining**  
Immerse yourself in an interactive workshop that teaches Scrum in a playful way and promotes a sense of community, personal responsibility and creativity.
- ✓ **Experienced moderators**  
Our experienced coaches enrich both Scrum newcomers and experienced colleagues. The workshops deepen the understanding of Scrum and offer new perspectives on agile projects.
- ✓ **Get to know the strengths and weaknesses of Scrum**  
You will learn about the advantages and disadvantages of Scrum and can consider how to use what you have learned. Find out quickly whether Scrum fits into your working environment.
- ✓ **Effective team building with Agile Mixperience**  
Our workshop teaches the Scrum framework and strengthens team spirit, ideal for team events. In the long term, you will benefit from better collaboration in projects.
